

## 04 Health procedures

### 04.4 Allergies and food intolerance

When a child starts at the preschool, the registration form requests information of any known allergies or food intolerances. This information is recorded on the registration form.

- If a child has an allergy or food intolerance, '04.4a Allergies and food intolerance risk assessment' form is completed with the following information:
  - the risk identified by the allergen
  - the level of risk, taking into consideration the likelihood of the child coming into contact with the allergen
  - control measures, such as prevention from contact with the allergen
- '04.2a Health care plan' form must be completed with the nature of the allergic reaction and how to manage the reactions and next steps.
- The child's name and photo is added to the allergies list.
- Foods containing allergens are identified on website menus.
